### **Centaur Free Flow Equinecisers Terms & Conditions of Supervised Installation**

We offer to send a field project coordinator out to your Ranch for 2 days, to oversee your workers, & contractors, to make sure the pad is LEVEL, the electrical is wired correctly, & the cement is correct, and the fencing is installed correctly. This service is INCLUDED in the purchase price of any Free Flow Equineciser Model with our STANDARD FENCING package.

Your licensed electrician **MUST BE** there, during the installation process, to do the necessary final electrical connections.

This guarantees that the Equineciser will function properly, and allows us to familiarize you our client, with the Equineciser. Therefore we must rely on your understanding and help in supplying additional manpower, (2 to 3 people), and the necessary tools & equipment, outlined below:

- 3 – Tall Ladders at least 8 Ft. Tall
- 1 – All Terrain Forklift with Pneumatic Wheels
- Extensions for Forklift, to make the forks at least 6 Ft. long
- ½” Socket Set
- Combination Wrench Set
- Wire Strippers
- Assorted Screwdrivers, both Phillips & Standard
- Black Electrical Tape

Our Project Coordinator will contact you two (2) weeks prior to the scheduled installation, to confirm that the project is ready for installation. If the installation has to be rescheduled due to customer delay, Centaur Horse Walkers, Inc., will confirm a new installation date at their discretion.

Due to numerous installations where the grading and/or the electrical was not done correctly, our Project Coordinator, has had to layover, and incurred more costs than necessary. Now we charge an additional \$1,000.00 to our clients, should our Project Coordinator arrive at the jobsite, and find the pad and/or electrical incorrect. This price is for food, lodging, truck & tool rentals for 2 additional days **ONLY**, thereafter it is, \$500.00 per day.

The above prices are all based on geographical location of jobsite, the prices could vary upwards. Should you choose one of the optional installation packages offered by Centaur, the above mentioned charges are NOT included in the prices, and will be added to the installation prices if necessary.

If the Project Coordinator arrives on site on the appointed date, but the job site is not ready for installation of the Equineciser and/or Fencing, it is the customer's responsibility to arrange a new installation date at his/her expense. This may include, but is not limited to, additional time, travel & accommodations, which would be due in full upon completion of installation.

By Signing Below, you accept & understand the terms & conditions, stated above.
